Charlot Farms and that is available for collection at the time. Applicable repeat fees will have to be paid by mare owner.
- 6.) Both parties acknowledge that there is a life foal guarantee for all mares NOT OLDER than 14 years of age during 2008. Onus is on mare owner to submit proof of age (valid registration papers). There is NO life foal guarantee for mares older than 14 years during 2008 or for semen used to flush embryos and the repeat service is limited to a total of three shipments.

For life foal guarantee to be valid, the following conditions must be met:
 - a) A licensed veterinarian must examine the Mare and advise Stallion Owner in writing of the mare's pregnancy status within 50 days after the last insemination date or by August 31, whichever comes first. If this notification is not provided, the life foal guarantee and return breeding privileges of this contract becomes null and void.
 - b) Should the mare not produce a live foal (i.e. a newborn foal that stands and nurses), the mare owner is entitled to return breeding. This guarantee shall only apply if the stallion owner is notified in writing within 72 hours of the foal's death. A statement of details by a licensed veterinarian must follow within 10 days or the guarantee becomes null and void. This clause is also binding in case of abortion. If the mare resorbs her pregnancy, we need written verification of this fact from your veterinarian.
- 7.) This agreement is binding upon the parties herein and reflects the entirety of their agreement.
